The students enrolled to the first year B.Ed. programme are divided into certain groups. Each group is assigned to the respective teachers. This allocation is based on choice of subject based teaching method. At the beginning of internship we organize a common orientation programme for the students to make them learn how to formulate learning objectives for the lessons to be delivered in the classroom during practice teaching sessions.

#### **2. Description of Lesson plans:**

This orientation programme is also useful in providing students information about how to prepare detailed lesson plan. Students are orientated towards the modules of lesson plan and necessary description to be included in the lesson plan.

#### **3. Micro Teaching Plan**

Students also get guidance regarding preparation of micro teaching plan, micro teaching evaluation marking etc.

#### 4. Description of teaching Module:

Students in this particular orientation programme undergo training on the preparation of practice teaching sessions. They are primarily oriented about subject description to be provided in the classroom teaching, revision or recapitalization at the end of the class and the practical application of the lesson taught to the students and finally giving homework to students to map their learning.
